

Anthura[®]

Creating blooming happiness

Anthurium pot plant assortment

2024 - 2025

For over 85 years, Anthura has been leading in Anthurium and Orchid breeding. Recently we expanded our portfolio to include Bromeliad.

Through cutting-edge techniques, we breed sustainable varieties that traverse the globe from grower to consumer. Our dedication to high-quality research contributes to a kaleidoscope of colours and shapes, resulting into stronger, more resilient plants.

Our palette of more than 700 varieties is marketed in over 70 countries. With passionate employees in the Netherlands, Germany, North Macedonia, and China we are driven to reach new heights every day.

In this brochure you will find our Anthurium pot plant assortment.

“It’s in our DNA to keep raising the bar. By working closely together - both internally and externally - we are able to stay one step ahead in the market. Only together we can create the most beautiful product. This fits perfectly with our mission to make the world more beautiful and to let everyone - anywhere - enjoy Anthuriums, Orchids and Bromeliads.”

Marco van Herk, Commercial Director
